

Kennecott Utah Copper

Health, Safety, Environmental and Quality Policy

Kennecott Utah Copper (KUC) is committed to producing metals and minerals and to managing our land and water assets in a safe and environmentally responsible manner.

We recognize that health, safety, environmental and quality (HSEQ) excellence is fundamental to sustainable business success. As such, we will:

- Ensure on-going implementation of our existing systems and practices to **prevent** HSEQ incidents.
- **Comply** with all relevant HSEQ commitments, laws, regulations and other requirements.
- Continue to implement Rio Tinto's risk management framework and to communicate HSEQ risks and opportunities.
- Establish measurable objectives and targets to drive continuous HSEQ **improvement**.
- Provide adequate resources to meet our objectives and improve HSEQ performance.
- Set high HSEQ performance standards for each person who works at KUC and hold each person accountable for their actions.
- Meet the expectations and requirements of our customers.

This policy is in alignment with the standards of conduct defined in The Way We Work. It outlines our commitment to our employees, shareholders, stakeholders and customers.
