

Kennecott Utah Copper

Health, Safety and Environmental Policy

Kennecott Utah Copper (KUC) is committed to producing metals and minerals in a safe and environmentally responsible manner. We recognize that health, safety and environmental (HSE) excellence is fundamental to long-term business success. To that end, we shall:

- Comply with all relevant environmental, health and safety commitments, laws, regulations and other requirements.
- Establish systems and practices that promote safe and healthy workplaces and prevent or minimize pollution.
- Set high HSE performance standards for each person who works at KUC.
- Hold each person accountable for his or her actions.
- Provide the resources to maintain and improve HSE performance.
- Seek continual HSE improvements by setting objectives and targets and reviewing progress.
- Communicate our progress and achievements toward improving performance to our stakeholders.

This policy outlines our commitment to our employees, shareholders, communities and customers.
